**EXAMINER'S AMENDMENT AND STATEMENT OF REASONS FOR ALLOWANCE**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-5, drawn to a method of operating a programmable washing machine, classified in class 008, subclass 159.
  - II. Claim 6, drawn to software, classified in class 700, subclass 90+.
2. The inventions are distinct, each from the other because of the following reasons:
3. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process as claimed can be practiced by another materially different apparatus such as a programmable washing machine with hardware storage media.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
5. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.
6. During a telephone conversation with Mr. Werner H. Sterner on 23 November 2004 a provisional election was made without traverse to prosecute the invention of

Group I, claims 1-5. Affirmation of this election must be made by applicant in replying to this Office action. Claim 6 is withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

#### ***Examiner's Amendment***

8. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

9. Authorization for this examiner's amendment was given in a telephone interview with Mr. Werner H. Stermer on 23 November 2004.

10. The application has been amended as follows:

#### **Claim 1:**

In line 13, delete "alternates" and insert therefor --alternate--.

In line 24, between "drum speed" and "in the first phase", delete the term "as".

**Cancel non-elected Claim 6.**

***Allowable Subject Matter***

11. The following is a statement of reasons for the indication of allowable subject matter: The closest prior art of record fails to teach each and every limitation of the instant invention. Specifically, U.S. Patent No. 6,463,767 to Uzkuireit *et al.*, U.S. Patent No. 6,386,004 to Salein, U.S. Patent No. 5,392,480 to Ishihara *et al.*, & U.S. Patent No. 3,344,447 to Candor *et al.* each disclose reversible rotary laundry drums with scooping mechanisms. However, the references fail to teach or reasonable suggest the claimed programmable washing machine method for a tilted axis washing machine further including varying the speed and time intervals of three separate phases based upon progress of a wet processing phase, which is disclosed as an essential element of claimed invention, as described in claim 1.
12. For at least the foregoing reasons, claims 1-5 are believed to recite patentable subject matter.
13. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

14. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph L. Perrin, Ph.D. whose telephone number is (571)272-1305. The examiner can normally be reached on M-F 7:00-4:30, except alternate Fridays.
